HISTORY

Pilar Cipta Prima

Is one of the companies that engaged in steel construction services. It was started on 25th January 1995 in Jakarta, with the use of simple equipment and small job scope at the beginning.

Nevertheless, we are thankful for the trust and opportunities given by our clients that through hard work and perseverance of our team, we can grow to be a better company in this industry with a larger scope of work compared to the beginning.

Our office and workshop are located at Lemah Abang, Cikarang - Bekasi,

with an area of 12.555 square meter.

MISSION

We are committed to give the best and professional service to our clients. We offer:

- The top-notch quality of service and result.
- The completion of work and delivery as scheduled.

VISION

Our vision is to be one of the steel construction companies in Indonesia that is growing continuously and competitive in the marketplace.

SERVICES & JOB SCOPE

In terms of steel construction, these are the services that we offer:

- Shop drawing
- Fabrication
- Sand blasting
- Painting
- Installation or erection

Furthermore, we have the capabilities to perform those services for:

- Industrial building (factory, warehouse, workshop, etc)
- Infrastructure facilities (bridge)
- Box girder and gantry crane
- Other steel construction projects
